Built for tough conditions

EV Charger Specification

Charging power	7.2kW (1P)
Connector type	Type 2 or 1
Maximum Input Current	32 amps
Nominal AC Frequency	50 Hz / 60 Hz
Input voltage	110 / 230 V AC \pm 10% (1P)
Operating temperature	From -30°C to 50°C
Relative humidity	0-95%
Ingress Protection	IP65
Cable length	Up to 5m
Dimensions (DxW)	360x90mm
Weight	2.9kg
Wireless Communication	Wi-Fi
Communication Protocol	OCPP 1.6j
Storage Temperature	From -40°C to 85°C
Packing Weight	3.3kg
Packing Dimensions (LxDxW)	380x380x100mm
Units per pallet	42
Protection	Built-in 6mA DC RCD. Only type A RCD + MCB required
User interface	LED
Certification	CE Certified
Standards	IEC 61851-1, IEC 61851-21-2
	EU RoHS Directive Compliant
